

The Town of Bluffton contracts with Waste Management to provide recycling and trash pick-up service for residents within the town limits.

One 18 gallon recycling bin and one 90 gallon trash cart with lid and wheels will be provided to each residence without requiring a deposit on these items. It will take about 10-14 working days for the containers to be delivered after the Town has received notification.

All containers should be placed curbside the night before scheduled pickup days to avoid your container being missed.

Approved containers are the 90 gallon waste management trash cart, the 18 gallon recycle bin and plastic sacks designed to store and enclose solid waste with sufficient wall strength to maintain physical integrity when lifted by the top. Total weight of a bag with contents shall not exceed forty (40) pounds.

Recyclable materials are: Newspaper, magazines, and related fibrous products and cardboard that has been broken down to fit within the recycling container; glass containers (clear, brown, green); aluminum and steel cans; and plastic containers (#'s 1-7).

Yard waste (grass, trimmings, etc. are not allowed in the household trash cart. This material can be disposed of at the county recycle centers.

Refer to pick up [schedules](#) for Trash and recycling as they may not be on the same day.

The following holidays are observed by Waste Management and will cause the pickup schedule to move back by one day for the balance of the week that the holiday falls in. Those holidays are: New Year's Day, Memorial Day, 4th of July, Labor Day, Thanksgiving Day and Christmas Day.

Waste management will not deliver any containers to a dwelling that is still under construction; please do not call for service until you are moving into the residence.

If you have any questions or would like to schedule service, please contact Ron Olson via E-mail or Phone:
